Accessibility Statement

The Accessibility Team is the newest team in the Freezer Burn roster! Over the years, we have heard that the lack of accessible accommodations have prevented people from attending Freezer Burn event and we aim to fix this.

The Accessibility Team is driven by participant input on how to identify and mitigate these barriers.

What we have heard so far is that people need help getting around, help with The Hill, more accessible portos, and more awareness on accessible barriers. Here's what we're trying this year! We encourage and welcome your feedback post-Burn. Please e-mail **Freezerburnaccessibility@gmail.com** to share your thoughts, or respond in the post-Burn survey.

FREEZER BURN TRANSIT

It's a golf cart (type vehicle) and operates somewhere between a bus and a taxi. There are six Blue Accessible Benches (noted on the map).

Pick-ups will be every 30-60 minutes-ish. You can also schedule a pick-up with Oracle or if you see a Ranger, ask them to radio someone to come pick you up.

The transit system will run

Thursday, 4pm til Midnight

Friday - Sunday, Noon - Midnight

There will be a daily 45 minute "Let's Go That Way!" tour at 2pm and 7pm.

If you want/need a ride outside those hours, please let Oracle or a driver know (with as much notice as possible) and we will do our best to make it happen.

HILL HELP

The blue transit benches do double duty! We've placed one at the top of every hill and you're welcome to sit and catch your breath for as long as you need.

But... if you're done sitting or don't need it, please make it available to those who do.

ACCESSIBLE PORTOS

This year there will be accessible porto-potties at every porto bank. These are available to anyone with accessibility needs.

Please do not use them unless you need to. It's likely that it's taken someone who needs the accessible porto quite a bit of time to get there, and they only have the one option.

AWARENESS ON BARRIERS

Challenges to accessibility are not always obvious and they're not always related to mobility. They can include (but are not limited to):

Chronic/episodic pain

Respiratory illness or conditions

Muscular/nerve disorders

Vision

Neurological/balance disorders

Injury

Please do not question or pass judgment on whether or not someone is entitled to use the provided accessible accommodations. At the same time, please refrain from using the accommodations if you do not need to.

The Principals by Brother Sweet (Creative Design)

Wild Hearts, Open Minds: Embracing Burning Man's Code

Delve into the core principles of Burning Man, a vibrant and ever-evolving community. These principles, created by Burning Man co-founder Larry Harvey, serve as a compass for the regional network and deeply shape the culture of this unique event. Join us as we explore the essence of Burning Man through engaging comics, illuminating the dynamic nature of the community's values.

Art: Non-Funded Projects

Effigy: The Memory Man

by Blaze

The Memory Man was started August 2023 when its heart was carved from a stump with a chainsaw. It was then taken to Black Rock City to steep in the moment and symbolically capture some of the magic to bring home to Freezer Burn.

It did steep quite literally in what was the rainiest Burning Man on record. I had seen rainier days on the Fraya, but I digress.

After the Man of Black Rock City burnt, a helpful firefighter singed the heart in the effigy's fire—forever connecting the Memory Man to the Man of BRC. In this way, the Freezer Burn effigy burn started that Monday evening.

The Memory Man follows in the line of Blaze men, influenced by the deadfall-based effigies of Brother On, the Panel Man from Freezer Burn III, and the Man of BRC.

The Memory Man carries 15 drawers in homage to Salvador Dalí's *Venus de Milo with Drawers* (1936). Dalí's drawers represented the access points to memories stored in the unconscious and subconscious. In our case you might have a bin or two filled with memories gathered over the 15 years of Freezer Burn.

The Man stands upon an old cabinet-style TV, the kind of which you might have grown up around or seen at a grandparents' house. Its comforting glow drawing and shaping the span of our attentions.

A Fortune Telling Station has been installed into the TV to help you determine your future memories. Beware, looking into your future can present pressing questions to answer today.

Temple by Michael Carr

I chainsaw-carved the temple's two logs in a primitive style, symbolizing the ancient people of our past and the evolution of art and technology.

Inspired by the tiki aesthetic, this piece honors the spirit of male, female, and all genders, embodying the diverse energies within our community.

The sculpture features a bench, inviting participants to pause, reflect, and connect. The cross beam represents unity and support, showcasing the strength of our collective efforts and the spirit of growth and transformation inherent to Freezer Burn.

This piece is dedicated to Freezer Burn, a vital regional Burn event that continues to thrive, fostering creativity and community.
